Summary

An enthusiastic work ethic and high attention to detail are qualities I bring to each project. I bring my whole self to tasks and goals, demonstrating my dedication to quality of work and creating healthy relationships with everyone around me. Strong interpersonal communication and conflict resolution skills make me an excellent collaborator. In my free time, I enjoy immersing myself in new technologies. Curiosity is the largest driver of my learning.

Education

Great River School - High School

Dev Bootcamp - Ruby on Rails Developer
Gained valuable experience in many aspects of software development. This includes technical skills but equally importantly, how to be on a team. Was put in difficult situations and given the tools to work effectively together and built strong team skills.

Activities

Dev Bootcamp Mentor Program - Mentor
Provided my mentee with support regarding Ruby and Javascript. Gave guidance with solving algorithmic problems.

FIRST Robotics Team 2491
Led a team of 5 students to develop, test and maintain a code base for a robot two years in a row. Provided insight and knowledge to new members. Contributed valuable opinions to the team captain and assisted her in major decision. Built and continued relationships with multi-billion dollar companies to secure funding for out team for years to come.

Skills

Technology
- JavaScript (Meteor, JQuery, ES6, Handlebars and other libraries) 10/10
- Linux (deployment, maintenance, scripting) 10/10
